

What is MOM?

The Meeting of Minds (MOM) complements and enriches the pre-planned programs of AFCSR through the fuller participation of the attendees. Invariably in a conference of this size, there are delegates who wish to present a topic of their own interest to a small group of other delegates who may have the same interest. Meeting-of-Minds allows speakers, delegates, sponsors and exhibitors to create their own session. Others who wish to listen in or add to the topic can sign up to attend. Arrangements are then made for those with like interests to meet and interact in small groups.
